## Analysis - INCOME TAX

### © DEFINITIONS:

#### ♦ Widening of scope of Accumulated profits for the purposes of Dividend

It is proposed to insert a new Explanation 2A in section 2(22) of the Act to widen the scope of the term 'accumulated profits' so as to provide that in the case of an amalgamated company, accumulated profits, whether capitalised or not, or losses as the case may be, shall be increased by the accumulated profits of the amalgamating company, whether capitalised or not, on the date of amalgamation.

The said proposed insertion is to prevent abusive arrangements resorted to by companies in order to escape liability of paying tax on distributed profits by reducing capital through amalgamation route.

(w.e.f. A.Y. 2019-2020)

#### ♦ Widening the definition of Income

It is proposed to amend the definition of the term 'Income' so as to include the Fair Market Value of Inventory on its conversion from stock in trade to capital asset.

Further, it is proposed to amend definition of 'Short Term Capital asset' so as to provide that on sale of the said converted capital asset, the period of holding shall be reckoned from the date of its conversion or the treatment.

Thus, if the stock in trade is converted into capital asset, then the Fair Market Value of the inventory on the date of conversion determined in the prescribed manner shall be treated as business Income.

(w.e.f. A.Y. 2019-2020)

It is further proposed to amend definition of the term 'Income' so as to include any compensation or other payment received on termination of the employment or modification of terms and conditions relating thereto.

(w.e.f. A.Y. 2019-2020)

## © INCOME DEEMED TO ACCRUE OR ARISING IN INDIA

### ♦ Amendment to Section 9 relating to Income deemed to accrue or arise in India

The scope of existing provisions of section 9(1)(i) is restrictive as it essentially provides for physical presence based nexus rule for taxation of business income of the non-resident in India. Explanation 2 to the said section which defines 'business connection' is also narrow in its scope since it limits the taxability of certain activities or transactions of non-resident to those carried out through a dependent agent. Therefore, emerging business models such as digitized businesses, which do not require physical presence of the non-resident or any agent in India, is not covered within the scope of the said clause.

Thus, in view of the above, it is hereby proposed to substitute clause (a) of the said Explanation 2 so as to provide that "business connection" shall include any business activity carried through a person who, acting on behalf of the non-resident, has and habitually exercises in India, an authority to conclude contracts on behalf of the non-resident or habitually concludes contracts or habitually plays the principal role leading to conclusion of contracts by the non-resident and the contracts are -

- 0 ) in the name of the non-resident; or
- 0 ) for the transfer of the ownership of, or for the granting of the right to use, property owned by that non-resident or that non-resident has the right to use; or
- 0 i) for the provision of services by that non-resident.

It is further proposed to insert a new Explanation 2A in section 9(1)(i) so as to provide that the significant economic presence of a non-resident in India shall constitute "business connection" of the non-resident in India and the "significant economic presence" for this purpose, shall mean -

(a) ) any transaction in respect of any goods, services or property carried out by a non-resident in India including provision of download of data or software in India, if the aggregate of payments arising from such transaction or transactions during the previous year exceeds such amount as may be prescribed; or

(b) ) systematic and continuous soliciting of its business activities or engaging in interaction with such number of users as may be prescribed, in India through digital means.

It is further proposed to provide that the transactions or activities shall constitute significant economic presence in India, whether or not the non-resident has a residence or place of business in India or renders services in India.

It is also proposed to provide that only so much of income as is attributable to the transactions or activities referred to in clause (a) or clause (b) shall be deemed to accrue or arise in India.

(w.e.f. A. Y. 2019-2020)

## © INCOMES NOT TO BE INCLUDED IN TOTAL INCOME

- ◆ It is proposed to insert a new clause (6D) in the said section so as to exempt from tax any income arising to a non-resident, not being a company, or a foreign company, by way of royalty from or fees for technical services rendered in or outside India to the National Technical Research Organisation (NTRIO)

Consequently, NTRIO will not be required to deduct tax at source on such payment.

- ◆ Under the existing provisions pertaining to National Pension Scheme, an employee contributing to the NPS is allowed an exemption in respect of 40% of the total amount payable to him on closure of his account or on his opting out. This exemption is not available to non-employee subscribers.

In order to provide a level playing field, it is proposed to amend the said clause (12A) of section 10 of the Act to extend the said benefit to all subscribers.

- ◆ At present, there are no restrictions on payments made in cash by charitable or religious trusts or institutions. There are also no checks on whether such trusts or institutions follow the provisions of deduction of tax at source under Chapter XVII-B of the Act. This has led to lack of an audit trail for verification of application of income.

It is proposed to insert proviso in section 10(23C) so as to provide that for the purpose of determining the amount of application under item (a) of the said third proviso, the provisions of section 40(a)(ia) pertaining to disallowance of expense for non-deduction of tax at source and restrictive provisions of cash payment in excess of Rs. 10,000/35,000 of section 40A(3)/(3A) shall, mutatis mutandis, apply as they apply in computing the income chargeable under the head "Profits and Gains of Business and Profession".

- ◆ It is proposed to withdraw the benefit of exemption to long term capital gain arising on sale of listed equity shares covered in Section 10(38) on or after the 1st day of April, 2018.

(w.e.f. A.Y. 2019-2020)

- ◆ **Amendment in Section 11 relating to Income from property held for charitable or religious purposes**

At present, there are no restrictions on payments made in cash by charitable or religious trusts or institutions. There are also no checks on whether such trusts or institutions follow the provisions of deduction of tax at source under Chapter XVII-B of the Act. This has led to lack of an audit trail for verification of application of income.

In order to encourage a less cash economy and to reduce the generation and circulation of black money, it is proposed to insert a new Explanation to the section 11 to provide that for the purposes of determining the application of income under the provisions of sub-section (1) of the said section, the provisions of section 40(a)(ia) pertaining to disallowance of expense for non-deduction of tax at source

and restrictive provisions of cash payment in excess of Rs. 10,000/35,000 of section 40A(3)/(3A) shall, mutatis mutandis, apply as they apply in computing the income chargeable under the head "Profits and gains of business or profession".

(w.e.f. A. Y. 2019-2020)

## © PROFIT AND GAINS FROM BUSINESS AND PROFESSION

### ◆ Amendment in Section 28 relating to Profits and Gains of Business and Profession

- It is proposed to widen the definition of business income so as to provide that any compensation due or received by any person, by whatever name called, at or in connection with the termination or the modification of the terms and conditions, as the case may be, of any contract relating to his business shall be chargeable to tax under the head "Profits and Gains of Business or Profession".
- It is proposed that if the stock in trade is converted into capital asset, then the Fair Market Value of the inventory on the date of conversion determined in the prescribed manner shall be treated as income to be taxed under the head "Profits and Gains of Business and Profession".

At present, under section 45, Capital Gain Income arising on conversion of capital asset into stock in trade is taxable. However,

under the existing law, there was no specific provision in respect of taxability in cases where, stock in trade was converted into capital asset and thus, the provision has been proposed in order to discourage the practise of deferring the tax payment by converting inventory into capital asset.

© **Rationalisation of provision of section 115BA relating to certain domestic companies**

Section 115BA of the Act provides optional benefit of lower income tax rate of 25% to newly set up domestic company, subject to conditions specified therein effective from A.Y. 2017-18.

However, there are certain incomes which are subject to a scheduler tax at a rate which is lower or higher than 25%. Consequently tax payers have been subjected to unintended hardship or unwarranted relief. Accordingly, it is proposed to amend section 115BA so as to clarify that the provisions of section 115BA is restricted to the income from the business of manufacturing, production, research or distribution referred to therein; and income which are at present taxed at a scheduler rate will continue to be so taxed.

(w.r.e.f. A. Y. 2017-18)

In our opinion, companies who have exercised this option of lower tax rate of 25% are at loss, since many benefits like deductions, depreciation as per income tax act, carry forward of losses are not available and also in this budget it is proposed to levy tax @25% to companies having turnover less than Rs. 250 crores with all benefits.

In order to rationalize the provisions of section 115BBE, it is proposed to provide that deduction in respect of any expenditure or allowance or set-off of any loss shall not be allowed even to income determined by assessing officer in said section.
